

## **Manor Primary Sports Premium 2017/18**

### **What is the Sports Premium?**

The Government has doubled its Sports Premium for the academic years 2017/18. This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school headteachers to spend on improving the quality of PE and sport for all their children.

The sport funding can only be spent on PE and sport provision in schools.

### **Purpose of funding**

Schools will have to spend the sport funding on improving their provision of PE and sport, but they will have the freedom to choose how they do this.

### **Funding for Manor**

For the academic year 2016/17 Manor has been allocated **£18,650**

### **Physical Education at Manor**

We believe that it is important for all children to understand the importance of physical exercise, to be taught to develop skills in a range of sports and to have opportunities to compete against others.

We provide a wide range of opportunities for PE, both within the school day, and outside of it. We work with other schools in the locality to provide opportunities for competitions and tournaments.

The governors agree that, along with all other areas of the curriculum, all children must benefit from opportunities regardless of sporting ability; that the most able children are given the opportunity to compete at appropriate levels; that staff have access to training opportunities and continued professional development; all sporting opportunities are funded by the school in order to support all families financially.
